

OPEN FORUM AND APPRENTICESHIP PROGRAMME 2004

The Open Forum is an ongoing opportunity for practitioners, clients and all people interested in transformational breathwork to experience the work of a variety of well-known trainers and workshop leaders from the UK and abroad. Some trainers do not visit often and this is a valuable opportunity to meet them. Each Open Forum will include a breathwork session and opportunity to share experiences. In addition to Open Forum days The Artemis Foundation can negotiate group reductions for members attending other national breathwork events and seminars e.g. Bob Mandel Weekend in April. Please enquire for details.

Apprenticeship runs in conjunction with the Breathwork Training Programme once a month. Apprentices attend Open Forum events as a part of their training, and are invited to participate in weekend workshops eg Spiritual Purification (3-4 July 2004) at a reduced rate. The Apprentice group meet for an evening session after the Open Forum, which specifically focus on issues around their development as practitioners.
