

THE WIZARD'S PATH

Discover and awaken your purpose – your strength – your courage – your gentleness – the ancient wisdom within you - and the skills to make your life a masterpiece of your own imagination

Wizards are the stuff of legends, have been around since time began and conjure up thoughts of magic, untold power, Merlin and a glimmer of hope in your hearts. The Wizard lives within all of us, lying dormant until awakened and has the ability to manifest miracles in our lives. Deep within you is a place of *knowing*, even more than believing. Increasing your connection between Universal mind and this powerful place, lies this ability to manifest miracles in your lives. This is where the Wizard lives. He sees and knows everything, and is a Being who can cause transformation. Once you find this Wizard within, you start on the path of magical knowledge.

A man must acknowledge many archetypes, not least the King, the Warrior, the Lover and the Magician, but it is the Wizard's Path which embraces all. During this training we will focus on men's issues in every respect including sexuality, and empowering these archetypes, whilst embracing the feminine (Goddess) aspect.

This personal four-day training allows you to shift from destructive masculine patterns, to an appreciation of brotherhood, trust and love - and share this unique space with other men. The course consists of a three-day residential in Northern France followed by an integration day 2 weeks later to share experiences and progressive change which has occurred since the training. The integration day is also an opportunity to meet the Goddess Training participants, to discuss their experiences and focus awareness around relationships between men and women in modern society – and how to make them work more effectively.

The course could be likened to a three-day tribal council for men. It is a vital opportunity to explore leadership and group dynamics. The training is run by a woman which can diffuse the tendency men have to operate from the macho male Ego, which allows participants to shift from competition, to brotherhood and trust. At different times in history women have featured in the training of warriors, notably in the Celtic tradition of the British Isles where a woman trained the men for war. The female trainer is not so much a leader; more representing 'earth mother', sister, friend, shaman and sorceress'. Even in adulthood, it appears most men haven't fully cut the ties with their Mother at a core level. Many men have shared how angry they feel about being controlled by a woman and this Course gives an opportunity to express how they feel and move into their full power. Often the hardest step to take is asking for the support they need to move forward in their life – taking this critical step could make the difference between realising your goals, or living an unfulfilled existence.

The Wizard's Path is a modern day opportunity to experience the profound changes, which can be experienced through undertaking ancient rituals. Each member of the group will partake in a Warrior's initiation into the Tribal Gathering. Aspects of this process can be deeply confrontational to one's image of self. The ceremony is addressing the Rite of Passage from adolescence to manhood and the implications of this transformation. Each member will enter the sacred space and present their case to the council. Additionally each participant will be led on an inner journey of initiation demonstrating Ritual Theatre in action. These adventures are supported and participated in by the whole group, which encourages an atmosphere of trust in the masculine energy.
